

## 2016–2017 BASIC AND CLINICAL SCIENCE COURSE (BCSC)

Keep your ophthalmic knowledge current with the American Academy of Ophthalmology's **2016-2017 Basic and Clinical Science Course (BCSC)**. The cornerstone of clinical ophthalmic knowledge, BCSC is the most extensive compilation of ophthalmic scientific research and clinical experience. This unparalleled, all-encompassing 13-volume set enhances clinical knowledge with numerous images, videos and self-assessment questions.

Continually assessed by a faculty of more than 80 expert ophthalmologists, every year the entire BCSC is updated and a number of sections undergo a major revision. For 2016-2017, these revised sections are:

- **Section 4:** Ophthalmic Pathology and Intraocular Tumors
- **Section 10:** Glaucoma
- **Section 11:** Lens and Cataract

### BCSC Complete Print Set

Comprises thirteen individual sections plus *Master Index*. The individual sections are each available for purchase separately.

### BCSC Residency Print Set

Comprises *BCSC Complete Print Set* and three additional books:

*Basic Principles of Ophthalmic Surgery, Third Edition*

*Basic Techniques of Ophthalmic Surgery, Second Edition*

*The Profession of Ophthalmology, Second Edition* (ebook – instructions on how to download this is supplied with the *Residency Print Set*)

### VIDEO

Sections 4, 6, 7, 9, 10, 11 and 12 all now include access to online video demonstrations of clinical and surgical techniques. The videos can be viewed by scanning the QR codes which are clearly indicated within the books.

£1450.00 / €1950.00

The American Academy of Ophthalmology and the European Board of Ophthalmology (EBO) have partnered to make BCSC the standard text for all European ophthalmology training programmes. The EBO recommends BCSC as the primary educational resource for European trainees and ophthalmologists studying for the annual EBO Diploma Exam.

As each BCSC section undergoes major revision, an EBO peer review committee will advise the Academy on content needed to make the book relevant for European readership.

## ESSENTIAL TEXTBOOKS FOR OPHTHALMOLOGY RESIDENTS

### Basic Techniques of Ophthalmic Surgery Second Edition

Edited by Jean Hausheer  
Jun 2015 608pp,  
500+ images & 175 videos  
9781615256174  
Paperback + Online video access  
£160.00 / €205.00

More than 80 of the most common surgical procedures performed by ophthalmologists are described step-by-step in this comprehensive textbook. Concise text and more than 500 images illustrate the procedures and skills needed for surgical proficiency. This fully-updated second edition is intended to improve surgical training in ophthalmology residency programmes. It is also designed to serve as a review for more senior residents and beginning ophthalmic surgeons. The new edition features 175 video vignettes which illustrate key points or alternative techniques. The videos can be viewed by scanning the QR codes within the book. This book is a practical complement to the concepts and environments covered in the companion volume, *Basic Principles of Ophthalmic Surgery, Third Edition*.

### Basic Ophthalmology Ninth Edition

Edited by Richard A. Harper  
2010 240pp, images  
9781615251230 Paperback  
£51.50 / €65.00

Features practical information on the diagnosis, management and referral of common ocular disorders and summarises

important ophthalmic concepts, techniques and facts with annotated resources for additional information.

### Basic Principles of Ophthalmic Surgery Third Edition

Edited by Ayman Naseri  
Jun 2015 296pp,  
200+ images & 4 videos  
9781615256181  
Paperback + Online video access  
£160.00 / €205.00

This new edition has been expanded to include discussion of requirements for medical training and four new clinical chapters. Chapter highlights include key points, suggested reading, self-assessment questions, and more than 200 images, plus four new videos. The videos can be viewed by scanning the QR codes within the book. This book lays the foundation for the 80+ surgical procedures covered in the companion volume, *Basic Techniques of Ophthalmic Surgery, Second Edition*.

### Practical Ophthalmology A Manual for Beginning Residents, Seventh Edition

Edited by Preston H. Blomquist  
Oct 2015 352pp, images  
9781615256132 Paperback  
£145.00 / €180.00

This updated essential text helps ophthalmology residents gain confidence while becoming skilled practitioners. Highlights include coverage of a thorough ophthalmic examination, discussion of ophthalmic emergencies and common ocular medications. Step-by-step instructions for 57 specific examination and testing techniques are available for quick access. The "Pitfalls and Pointers" sections present tips for avoiding or resolving common problems.

## OPHTHALMIC MEDICAL ASSISTING

### Ophthalmic Medical Assisting An Independent Study Course, Fifth Edition
