

HIGHLIGHTS

NEW

INTEGRATED HEMATOPATHOLOGY Revised Edition

Cherie H. Dunphy

Apr 2016 335pp, colour illustrations
9780891896333 Hardback
£140.00 / €190.00

This revised edition is a comprehensive resource focusing on the applications of flow

cytometric immunophenotyping (FCI) in combination with morphology for diagnostic haematopathology. In-depth coverage includes detailed descriptions of the phenotypic findings of normal peripheral blood, body fluids, bone marrow, and lymphoid tissue elements.

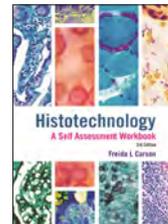

HISTOTECHNOLOGY A Self Instructional Text, Fourth Edition

Freida L. Carson & Christa Hladik Cappellano

Feb 2015 368pp, 350 illustrations
9780891896319 Hardback
£140.00 / €190.00

Thoroughly revised and updated, this edition includes expanded coverage of molecular techniques; an added chapter on laboratory informatics; large-scale updating of immunohistochemistry, enzyme histochemistry, and laboratory safety content; and added information on fixatives for electron microscopy.

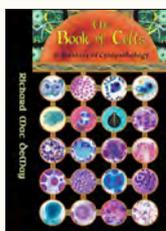

HISTOTECHNOLOGY A Self Assessment Workbook, Third Edition

Freida L. Carson

Mar 2015 287pp, 110 illustrations
9780891896401 Paperback
£195.00 / €265.00

The ideal companion to *Histotechnology: A Self Instructional Text*, the new edition of the *Workbook* has been updated and expanded, with over 1,100 questions to test your understanding of histotechnology concepts.

NEW

THE BOOK OF CELLS A Breviary of Cytopathology

Richard Mac DeMay

Jan 2016 592pp, 2685 illustrations
9780891896418 Hardback
£210.00 / €280.00

This new, beautifully-illustrated and highly-practical book is an ideal companion for the everyday diagnostic practice of pathologists and medical lab professionals. It is a portable reference guide that condenses and updates the encyclopaedic information contained in the iconic four-volume, *The Art & Science of Cytopathology, Second Edition*.

By the same author:

THE ART & SCIENCE OF CYTOPATHOLOGY

Second Edition

Richard Mac DeMay

2012 2076pp, 6,849 illustrations, in four volumes
9780891896449 Hardback £470.00 / €640.00

Reflecting the many and dramatic new advances in the field since the first edition was published. In four volumes, it includes nearly 7,000 new, high-resolution colour images from scanning to immersion magnifications and with diagnostic detail in Pap and Romanowsky stains, and thousands of quick reference tables and feature lists.

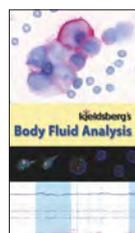

THE CYTOPATHOLOGY REVIEW GUIDE

Fourth Edition

E. Blair Holladay

Jul 2015 400pp, 503 illustrations
9780891896357 Hardback £150.00 / €200.00

Since its original publication in 1998, this best-selling book has prepared thousands of individuals to successfully pass their board examinations. This new fourth edition now brings significant additions and updates, keeping pace with a rapidly evolving field. It includes over 1,200 questions and hundreds of high-resolution images.

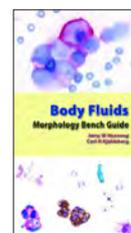

KJELDSBERG'S BODY FLUID ANALYSIS

Edited by Jerry W. Hussong & Carl R. Kjeldsberg

Feb 2015 240pp, 375 illustrations
9780891895824 Hardback
£170.00 / €230.00

Reworked with expanded chapters that now cover urine, semen and specialised body fluids such as vitreous fluid and sweat, this is the only fluids book available that goes beyond morphology and features extensive new ancillary methods in cytogenetics, flow cytometry, IHC, and molecular analysis.

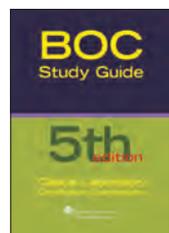

BODY FLUIDS MORPHOLOGY BENCH GUIDE

Edited by Jerry W. Hussong & Carl R. Kjeldsberg

Mar 2015 44pp, 123 illustrations
9780891896296 Spiralbound
£80.50 / €110.00

The ideal quick-reference image guide covering all major body fluid types as presented in the new *Kjeldsberg's Body Fluid Analysis*. Over 120 beautiful images are included in this concise, easy to navigate reference.

BOC STUDY GUIDES

BESTSELLER

BOC STUDY GUIDE: CLINICAL LABORATORY CERTIFICATION EXAMINATIONS Fifth Edition

Patricia A. Tanabe & E. Blair Holladay

2009 484pp, illustrations

9780891895879 Paperback £71.95 / €96.00

Includes over 2,000 multiple-choice questions and answers for every key laboratory specialty presented in a format and style similar to those on the actual BOC certification examination.

BOC STUDY GUIDE: PHLEBOTOMY CERTIFICATION EXAMINATIONS

Susan Phelan

Oct 2015 277pp, illustrations
9780891896128 Paperback £52.95 / €72.00

Covers all curriculum areas required by the BOC, with over 1,300 study questions and images, as they appear on the BOC Phlebotomy certification exam.

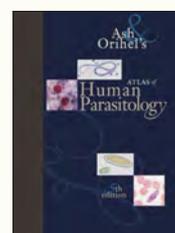

BOC STUDY GUIDE: HISTOTECHNOLOGY CERTIFICATION EXAMINATIONS

Freida L. Carson & Glenda F. Hood

2014 316pp, illustrations
9780891896111 Paperback
£64.50 / €87.00

Includes over 1,100 multiple-choice questions, arranged in chapters which correspond to the major content areas on the examination, including fixation, processing, microtomy, staining, and laboratory operations.

PATHOLOGY ATLASES

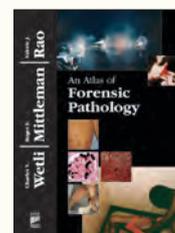

ASH & ORIHEL'S ATLAS OF HUMAN PARASITOLOGY Fifth Edition

Lawrence R. Ash & Thomas C. Orihel

2007 540pp, 1,021 illustrations
9780891891673 Hardback
£205.00 / €275.00

A must-have for parasitic identification, with complete coverage including well-recognised species of parasites as well as information on those less-commonly encountered. It features new imaging throughout; quick morphologic keys; clinical images of infection; important diagnostic procedures; and expanded treatment of parasite-like artefacts and pseudoparasites culled from real-world cases.

AN ATLAS OF FORENSIC PATHOLOGY

Charles V. Wetli, Roger E. Mittleman & Valerie J. Rao

1999 296pp, 850 colour illustrations
9780891894308 Hardback
£115.00 / €155.00

A breakthrough guide to the forensic autopsy, this book addresses all major fatality categories, including sharp and blunt force trauma, firearms, fire, electricity, automobile crashes, drugs, and alcohol. Chapters also discuss the special considerations for paediatric deaths, and provide a chronological guide to decomposition. Examples of both injuries and investigative sites are extensively illustrated with more than 850 full-colour images, including photographs, photomicrographs, x-rays, and CAT scans.

QUICK COMPENDIUMS

Ideal study tools for residents preparing for their exams, well as valuable single-volume quick reference guides for practising pathologists. Content is presented in a concise, easy to read and well-organised format, with hundreds of high-quality illustrations. The *Compendium Companions* are concise, comprehensive self-study tools, with full explanations and direct references to each question in the corresponding *Compendium*.

QUICK COMPENDIUM OF CYTOPATHOLOGY

Walid E. Khalbuss, Sara E. Monaco & Liron Pantanowitz
2013 592pp, 941 colour illustrations, 186 tables
9780891895923 Hardback £205.00 / €275.00

QUICK COMPENDIUM COMPANION FOR CYTOPATHOLOGY

Challenge Questions for Cytopathology

Walid E. Khalbuss et al
Feb 2015 464pp, 410 illustrations
9780891896227 Paperback £125.00 / €165.00

QUICK COMPENDIUM OF SURGICAL PATHOLOGY

Stephen Ramsburgh
2007 768pp, illustrations
9780891895664 Hardback £150.00 / €200.00

QUICK COMPENDIUM COMPANION Challenge Questions in Surgical Pathology

Edited by Michael W. Cruise et al
2012 672pp, 702 illustrations
9780891895954 Hardback £205.00 / €275.00

QUICK COMPENDIUM OF CLINICAL PATHOLOGY

Third Edition
Daniel D. Mais
2014 336pp, 324 figures, 242 tables
9780891896159 Hardback £130.00 / €175.00

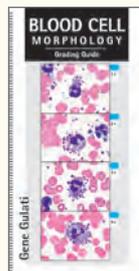

QUICK COMPENDIUM COMPANION FOR CLINICAL PATHOLOGY

Challenge Questions for Clinical & Molecular Pathology, Second Edition

George Leonard
2014 272pp, illustrations
9780891896166 Paperback £105.00 / €145.00

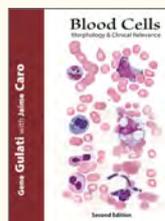

BESTSELLERS

BLOOD CELL MORPHOLOGY GRADING GUIDE

Gene Gulati
2009 96pp, illustrations
9780891895695 Spiralbound
£64.50 / €87.00

This highly-illustrated guide makes the process of grading blood cell morphology more immediately practical for laboratory professionals – and more meaningful for patient management.

BLOOD CELLS Morphology & Clinical Relevance, Second Edition

Gene Gulati & Jaime Caro
2014 227pp, 961 illustrations
9780891896234 Hardback
£140.00 / €190.00

Incorporates discussions, images, entities, artefacts, and mimics in the blood, with indexing of images,

quick comparative tables, and a new self-assessment test comprising over 100 questions with answers indexed to discussions in the text.

BONE MARROW PATHOLOGY Third Edition

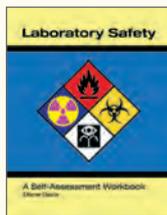

Kathy Foucar, Kaari Reichard & David Czuchlewski
2010 890pp, illustrations, in two volumes
9780891895688 Hardback
£105.00 / €145.00

Integrates the full scope of the 2008 WHO criteria with answers to day-to-day diagnostic questions, including diagnostic clues and caveats; newly-recognised benign and neoplastic disorders; new sections on the pathophysiologic/pathogenetic mechanism of disease for each entity; and morphologic approaches and standard techniques.

HEMOSTASIS CASEBOOK Lab Diagnosis & Management, Second Edition

George M. Rodgers & Angela E. Alday
2013 132pp, 24 illustrations
9780891896173 Hardback £55.95 / €76.00

Presents a comprehensive collection of case studies in haemostasis, thrombosis and coagulation. Complete with detailed explanations, this collection serves as a valuable teaching or self-study tool.

LABORATORY SAFETY A Self-Assessment Workbook

Diane Davis
2008 230pp, illustrations
9780891895701 Hardback
£64.50 / €87.00

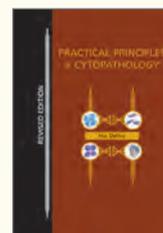

Get insight and advice on everything from the most routine safety procedures to handling biohazards and radioactive materials that takes the user, step by step, through critical principles and practical tips.

PATHOLOGY INFORMATICS Theory & Practice

Liron Pantanowitz, J. Mark Tuthill & Ulysses G.J. Balis
2012 336pp, illustrations
9780891895831 Hardback £105.00 / €145.00
Includes all of the critical and practical advice for management, operations, budgeting, and project planning and will serve as a comprehensive review of the field for students, pathologists, and laboratory professionals.

PRACTICAL CLINICAL PATHOLOGY

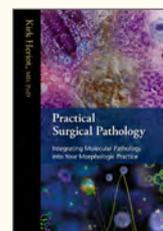

Daniel D. Mais
2014 512pp, 500+ illustrations
9780891895985 Hardback £195.00 / €265.00
A comprehensive and up-to-date working review of clinical pathology, with hundreds of high-resolution images illustrating haematology, immunology, chemistry, and microbiology.

PRACTICAL PRINCIPLES OF CYTOPATHOLOGY Revised Edition

Richard Mac DeMay
2007 420pp, illustrations
9780891895497 Hardback
£88.50 / €120.00

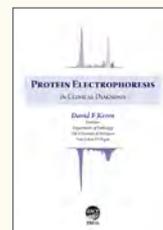

Provides encyclopaedic coverage that the diagnostician needs to have at hand. Every chapter provides the latest necessary information on scientific advances.

PRACTICAL SURGICAL PATHOLOGY Integrating Molecular Pathology into Your Morphologic Practice

Kirk Heriot
2013 559pp, 1,720 illustrations
9780891895886 Hardback
£205.00 / €275.00

An accessible single volume that quickly addresses most of the difficult situations that are commonly encountered in the daily practice of surgical pathology.

PROTEIN ELECTROPHORESIS IN CLINICAL DIAGNOSIS

David F. Keren
2012 272pp, illustrations
9780891895916 Hardback
£140.00 / €190.00

Presents the most clinically useful major advances in our knowledge of – and ability to detect – protein abnormalities by electrophoresis and immunoassay. It also includes cases that demonstrate challenging and classic examples of the various methods discussed in the book.
