

## Handbooks

**FORTHCOMING**

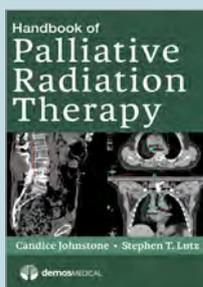

### HANDBOOK OF BREAST CANCER AND RELATED BREAST DISEASE

Katherine H.R. Tkaczuk,  
Susan B. Kesmodel &  
Steven J. Feigenberg  
Dec 2016 370pp, images  
9781620700990 Paperback  
£88.50 / €110.00

Surgical, radiation, and medical treatment options are all discussed for each stage of breast cancer, including treatment approaches in pregnancy and for high risk lesions and Phyllodes.

**NEW**

### HANDBOOK OF PALLIATIVE RADIATION THERAPY

Candice Johnstone &  
Stephen T. Lutz  
Sep 2016 280pp, 70 images  
9781620700952 Paperback  
£88.50 / €110.00

The first practical guide to palliative care in radiation oncology in which the editors have assembled a team of

leading radiation oncologists to write this how-to on planning and administering single-fractionated and hypofractionated radiotherapy for end-of-life cancer care.

**NEW**

### CANCER PHARMACOLOGY AND PHARMACOTHERAPY REVIEW

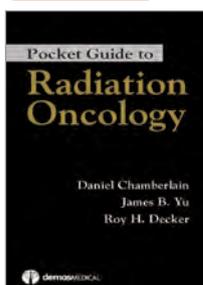

**Study Guide for Oncology Boards and MOC Exams**

Edited by Francis P. Worden, Anthony J. Perissinotti & Bernard L. Marini

Mar 2016 208pp, images  
9781620700761 Paperback £57.50 / €70.00

Provides the "must-know" facts on each cancer agent, including their pharmacokinetics, FDA-approved indications, toxicity, interactions, and other important information that is commonly found on board examinations and essential for any clinician or practitioner to review.

**NEW**

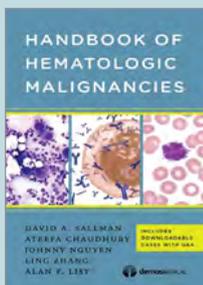

### POCKET GUIDE TO RADIATION ONCOLOGY

Daniel Chamberlain, James B. Yu &  
Roy H. Decker  
Sep 2016 232pp  
9781620700891 Paperback  
£57.50 / €70.00

Designed to fit easily in your lab coat or scrubs, *Pocket Guide to Radiation Oncology* is an efficient, no-frills guide to the

basics of clinical radiation oncology. The chapters are packed with clinical pearls and tables covering treatment options, doses, side effects, target delineations, treatment planning, and other essentials.

**FORTHCOMING**

### HANDBOOK OF HEMATOLOGIC MALIGNANCIES

David A. Sallman et al  
Nov 2016 306pp, 100 images  
9781620700945 Paperback  
£88.50 / €110.00

A unique, practical, and concise guide focused on the must-know points of diagnosis, prognosis, therapeutic management, and cutting edge clinical trial opportunities for each hematologic malignancy. This comprehensive subspecialty handbook is designed and organised for the busy hematologist, hematologic oncologist, hematopathologist, and trainee.

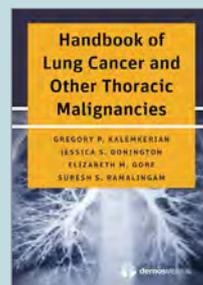

**★ BESTSELLER**

### HANDBOOK OF TREATMENT PLANNING IN RADIATION ONCOLOGY Second Edition

Edited by Gregory M.M. Videtic & Neil M. Woody  
2014 264pp, 200+ images  
9781620700358 Paperback  
£88.50 / €110.00

A focused pocket-sized handbook designed for radiation oncology trainees and residents, to serve as an up-to-date, quick resource to lead them through all of the standard steps to plan and deliver radiotherapy for all major malignancies.

**FORTHCOMING**

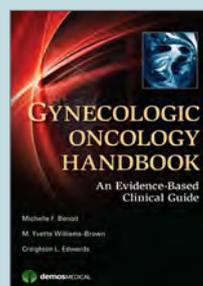

### HANDBOOK OF LUNG CANCER AND OTHER THORACIC MALIGNANCIES

Gregory P. Kalemkerian  
Nov 2016 370pp, images  
9781620700969 Paperback  
£88.50 / €110.00

An indispensable guide for all oncologists and practitioners who regularly care for lung cancer patients and those

suffering from mesothelioma, thymic tumours, and pulmonary neuro-endocrine tumours. Provides treatment coverage for those who don't fit the standard guidelines, and elderly and high-risk patients.

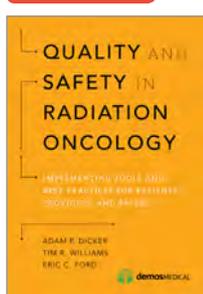

### GYNECOLOGIC ONCOLOGY HANDBOOK

**An Evidence-Based Clinical Guide**

Michelle Benoit,  
Marian Yvette Williams-Brown &  
Creighton L. Edwards  
2013 366pp, images  
9781620700051 Paperback  
£77.95 / €96.00

Addresses the fundamentals of gynecologic oncology, including staging, surgical technique, comorbidity diagnosis and management, adjuvant therapies including chemotherapy and radiation, and survival and palliative care.

**NEW**

### QUALITY AND SAFETY IN RADIATION ONCOLOGY

**Implementing Tools and Best Practices for Patients, Providers, and Payers**

Edited by Adam P. Dicker,  
Tim R. Williams & Eric C. Ford  
Aug 2016 336pp, images  
9781620700747 Paperback  
£98.95 / €125.00

Provides an authoritative and evidence-based guide to the understanding and implementation of quality and safety procedures in radiation oncology practice. Chapter topics range from fundamental concepts of value and quality to commissioning technology and the use of metrics. They include perspectives on quality and safety from the patient, third-party payers, and government.

**NEW**

### RADIATION ONCOLOGY REVIEW FOR BOARDS AND MOC

George Rodrigues & Tithi Biswas  
Sep 2016 494pp  
9781620700631 Paperback £105.00 / €130.00

Provides a rapid review of high-yield materials for preparation for the American Board of Radiology certification examination. The book gives a concise, targeted overview of the key knowledge within each clinical area of radiation oncology practice.

## Self-Assessment Guides

**FORTHCOMING**

### RADIOBIOLOGY SELF-ASSESSMENT GUIDE

Jennifer Yu & Mohamed Abazeed  
Nov 2016 434pp  
9781620701140 Paperback £98.95 / €115.00

A comprehensive review covering the principles of radiobiology as applied to radiation oncology along with their clinical applications. A companion to the *Radiation Oncology Self-Assessment Guide* and *Physics in Radiation Oncology Self-Assessment Guide*, the flash card question and answer format contains over 700 questions to aid study.

### RADIATION ONCOLOGY SELF-ASSESSMENT GUIDE

John Suh  
2012 572pp  
9781936287536 Paperback £88.50 / €110.00

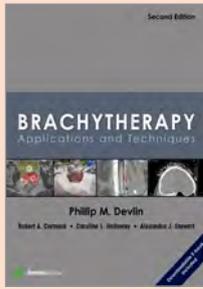

Covers all the sites and cancer types currently treated with radiotherapy. Flash card format contains over 900 questions.

### PHYSICS IN RADIATION ONCOLOGY SELF-ASSESSMENT GUIDE

Edited by Andrew Godley & Ping Xia  
2015 476pp  
9781620700709 Paperback £98.95 / €125.00

Covers the principles of radiation physics as applied to radiation therapy. Flash card format contains over 800 questions.

## Bestsellers

### BRACHYTHERAPY Applications and Techniques, Second Edition

Edited by Phillip M. Devlin et al  
2015 544pp, 300 images  
9781620700822 Hardback  
£225.00 / €295.00

Acknowledged as the essential book on the practice, the new edition of *Brachytherapy* is significantly revised and

updated to contain site-specific chapters that discuss how the evolving role of advanced image guidance has demonstrated greater efficacy and less toxicity. The chapter on prostate brachytherapy has been expanded to include other indications in the genitourinary system, and there are two entirely new chapters, one chronicling the history of brachytherapy and the other detailing the emergence of skin brachytherapy.

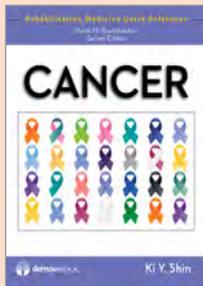

### BREAST PATHOLOGY

Melinda E. Sanders & Jean F. Simpson

2014 328pp, 400 colour images  
9781936287680 Hardback £170.00 / €205.00

*Consultant Pathology Series*

Based on actual cases drawn from the extensive breast pathology consultation practice at Vanderbilt University Medical Center, *Breast Pathology* covers the full classification of breast tumours and focuses on especially challenging differential diagnoses or unusual and problematic morphologic presentations. Using a pattern-based approach, each case is presented as a difficult diagnostic choice with two or even three possible diagnoses for the pathologist.

### CANCER

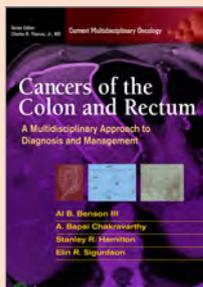

Ki Y. Shin

2014 184pp, images  
9781936287048 Hardback  
£110.00 / €135.00

*Rehabilitation Medicine  
Quick Reference*

Designed for the busy practitioner, *Cancer* provides succinct coverage of the assessment and treatment of a multitude of rehabilitation

issues as they uniquely affect cancer patients. Broken into four sections with 66 alphabetically arranged topics, this go-to reference addresses the key concerns in cancer rehabilitation ranging from basic principles, exercise, and therapy interventions to acupuncture, massage, and end-of-life care.

### CANCERS OF THE COLON AND RECTUM A Multidisciplinary Approach to Diagnosis and Management

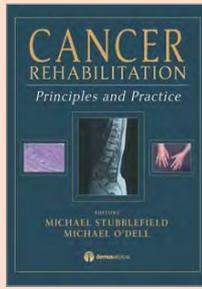

Edited by Al B. Benson III et al

2013 336pp, images  
9781936287581 Hardback  
£165.00 / €200.00

*Current Multidisciplinary Oncology*

A valuable resource for physicians, fellows, nurses,

physician assistants, physical therapists, and all health care providers involved in the treatment of cancers of the colon and the rectum. It summarises the issues related to the treatment of cancers of the colon and the rectum and describes an approach for optimal multidisciplinary care.

### CANCER REHABILITATION Principles and Practice

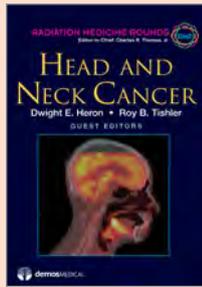

Michael Stubblefield &

Michael O'Dell

2009 1120pp, images  
9781933864334 Hardback  
£260.00 / €320.00

Provides an overview of the principles of cancer care and best practices for restoring function and quality of life

to cancer survivors. The principles section provides discussions of the various cancer types and their assessment and management. The practice section explores the identification, evaluation, and treatment of specific impairments and disabilities that result from cancer and the treatment of cancer.

### HEAD AND NECK CANCER

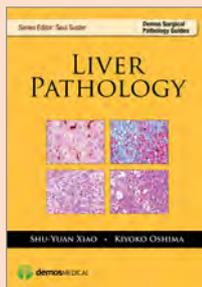

Edited by Dwight E. Heron & Roy B. Tishler

2011 184pp, images  
9781936287369 Hardback  
£125.00 / €155.00

*Radiation Medicine Rounds*

The authors address therapeutic approaches with chapters on current and future treatments. They then explore

issues of health services and palliative care, how to assess toxicity in patients, and issues of interpreting and integrating classic study data into treatment decisions.

### LIVER PATHOLOGY

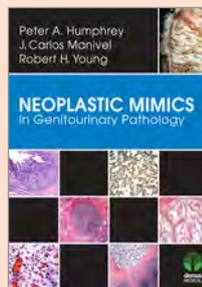

Shu-Yuan Xiao & Kiyoko Oshima

2014 200pp, images  
9781620700075 Paperback  
£88.50 / €110.00

*Demos Surgical Pathology Guides*

Covers the key entities and diagnoses that pathologists see in daily practice, focusing on the salient H&E histopathology of each entity with concise descriptions of

clinical features, differential diagnosis, and references for further study. It provides the opportunity for correlation with clinical data and radiologic and laboratory findings that are essential to correct diagnosis of non-neoplastic disease, and correlation with morphologic and immunohistochemical features in the case of neoplastic liver disease.

### NEOPLASTIC MIMICS IN GENITOURINARY PATHOLOGY

Peter A. Humphrey,

J. Carlos Manivel &

Robert H. Young

2013 272pp, 500 images  
9781620700204 Hardback  
£180.00 / €215.00

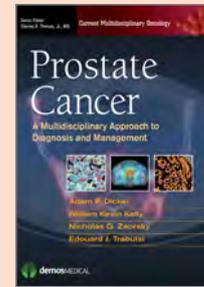

Provides the pathologist with detailed morphologic descriptions and diagnostic guidance in recognising these neoplastic mimics as they occur in the genitourinary system.

### ONCOLOGY CLINICAL TRIALS Successful Design, Conduct and Analysis

Edited by Kevin Kelly & Susan Halabi

2009 450pp, images  
9781933864389 Hardback £160.00 / €195.00

Provides a comprehensive guide for both early-career and senior oncology investigators into the successful design, conduct and analysis of an oncology clinical trial. It covers how to formulate a study question, selecting a study population, study design of Phase I, II, and III trials, toxicity monitoring, data analysis and reporting, use of genomics, cost-effectiveness analysis, systemic review and meta-analysis, and many other issues.

### PROSTATE CANCER A Multidisciplinary Approach to Diagnosis and Management

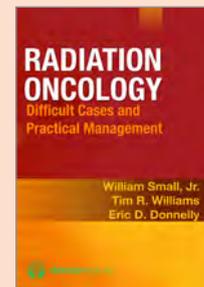

Edited by Adam P. Dicker et al

2015 400pp, images  
9781936287598 Hardback  
£175.00 / €210.00

*Current Multidisciplinary Oncology*

With an emphasis on multidisciplinary collaboration and decision-making, this

practical resource reflects the extraordinary advances in the treatment of prostate cancer during the past five years. This book provides a comprehensive view of the entire spectrum of prostate cancer management.

### RADIATION ONCOLOGY Difficult Cases and Practical Management

Edited by William Small Jr.,

Tim R. Williams & Eric D. Donnelly

2013 240pp, images  
9781936287376 Paperback  
£92.50 / €115.00

Provides residents, fellows, and clinicians a practical, evidence-based guide to the current

management of difficult cases in radiation oncology. Emphasis is on the management of those difficult cases that are commonly seen in practice. The book is presented in seven sections corresponding to the major treatment areas of radiation oncology.

### ONCOLOGY BOARDS FLASH REVIEW

Francis P. Worden & Rami N. Khoriaty

2013 256pp  
9781936287819 Paperback £61.50 / €75.00

Coverage extends across the range of major hematologic malignancies and solid tumours, as well as reviews of pharmacology, biostatistics, genetics and tumour biology, and survivorship and palliative care.

### TUMOR BOARD REVIEW

*Guideline and Case Reviews in Oncology,  
Second Edition*

Edited by Robert F. Todd III et al

2015 424pp  
9781620700600 Paperback £115.00 / €140.00

A concise yet comprehensive review of all areas of oncology practice for medical oncologists, radiation oncologists, and pathologists - both students and practitioners. The second edition has been thoroughly revised and updated.
